Homepage

When you visit our website, you will be greeted with an impressive homepage as shown below. If you already have an account, you can easily log in through the 'Log In' section. However, if you don't have an account, you'll need to sign up right away. Keep in mind that we offer exclusive benefits to registered users in order to provide you with an enhanced experience.

The screenshot shows a top navigation bar with developer links: Doğa Ünal (in), Ali Şıyar Arslan (in), Emir Morali (in), Hüseyin Karadana (in), Başar Çelebi (in), Batuhan Yavuz (in), and Oğuz Kaan Şanlı (in). Below the navigation is a header with a 'M Shopping List' logo, a search bar, and notification icons for 0 messages, 0 hearts, and 0 items. A 'Categories' dropdown is open. The main content area features a banner for 'LIVE JAM PHOTOGRAPHYON CAMERAS' with a 50% discount offer and a woman taking a photo. Below the banner are four service cards: 'Quality Product' (checkmark icon), 'Free Shipping' (truck icon), '14-Day Return' (double arrow icon), and '24/7 Support' (phone icon).

The footer includes links for SmartPhone, Laptop, Web hosting by Somee.com, and Monitor. Above the footer is a dark banner with the text: 'Hosted Windows Virtual Server. 2.5GHz CPU, 2GB RAM, 60GB SSD. Try it now for \$1!'

Category Filtering Dropdown

There is a dropdown list in the navbar for selecting the category and subcategory of a product. When clicked on a category, the dropdown extends to show the subcategory of the selected category. When the subcategory is clicked, the shop page displays with the products with selected subcategory.

A dropdown menu titled 'Categories' is shown, listing various product categories with a dropdown arrow next to each: Electronic, Phone, Computer & Tablet, House, Outdoor, Vehicle, and Foods & Drinks.

Register Page

To register on our website, you need to fill in the following information completely: first name, last name, email, phone number, username, password, date of birth, and gender. When entering your phone number, it's important to omit the '0' at the beginning. For example, you should enter it as '543 345 5445'. Your username and email address must not be already registered in the system.

You must be at least 10 years old to use our system. If you don't meet this age requirement, the system will redirect you back to the registration page, and you will need to provide the necessary information.

Your password must be at least 8 characters long and no more than 16 characters. After entering the information according to these criteria, when you click the registration button, a unique registration code will be sent to your email address. You can use this code to complete your registration.

Creating The Innovation Squad Account

Hello name name,

Welcome to our website! We are delighted to have you with us. To gain full access to your account, you need to complete the final step.

We have sent you a unique one-time code to activate your account and enjoy all the benefits of our website:

One-Time Code: **EHT9S!W:**

To verify your account, simply enter this unique code in the relevant field on our website. It is important not to share this code with others, as your security is our top priority.

If you have any questions, suggestions, or need assistance with anything, we are always here to help. We can't wait for you to start exploring our website and have an amazing experience.

Welcome once again, and thank you for joining us!

Best regards,
Monovi Team

[The Innovation Squad](#)

When you click the registration button, an email will be sent to you as shown on the left side. In this email, in the area highlighted in red, you will find a special 8-character code that you need to use to complete the registration process. You must enter this code correctly on the 'Verify Account' page within 3 minutes of receiving it. If you enter the code correctly, you will be automatically redirected to the login page after the registration process is completed. With these steps, you can activate your account securely and quickly.

NOTES

- After registration you will receive a verification code in your mail. Enter that code below.
- If you somehow did not receive the verification email, resend the verification email.

Enter the verification code

Login Page

To log in, you need to enter your email address and the correct password. If you've forgotten your password, you can reset it by clicking on the 'Forgot Password' option. This step provides you with an opportunity to easily reset your lost or forgotten password, allowing you to regain access to your account. After completing the login process, you will be directed to the homepage.

— Enter Login —

example@gmail.com

.....

Login

Forgot my password

After logging in, the menu area located in the top right corner will be automatically updated. In this area, the first name and last name of the logged-in user will be displayed, along with the 'Log Out' button. If the user clicks on the log out button, they will be directed to the homepage, and the session will be terminated.

If the user clicks on the area where their first name and last name are displayed, the 'Dashboard' page will open. This page provides an area where the user can perform actions related to their profile. Here, the user can update account information, adjust settings, or carry out other personalized operations. This user-friendly interface empowers users to have control over their account activities.

Dashboard Home Page

On the Dashboard main page, the user can view the information related to their own account. Additionally, by clicking the 'Edit Profile' button, the user can update their profile details. This process allows the user to keep their personal information up-to-date and accurate. It enables the user to maintain a profile that aligns with their changing circumstances and preferences, thereby enhancing their overall experience.

The screenshot shows the Dashboard Home Page. At the top, there is a navigation bar with links for Developers (Dogu Ünal, Ali Şiyar Arslan, Emir Morali, Hüseyin Karadana, Başar Çelebi) and a search bar labeled "Search for products". Below the navigation bar, the title "M Shopping List" is displayed next to a "Categories" dropdown menu. A navigation menu on the left includes links for Profile, Adresses, Reminders, My Products, Baskets, Security, and Log Out. The main content area features a profile picture of a hominid, with the name "Burak Türker" below it. To the right of the profile picture, there are fields for Email (karadanakutuphane@gmail.com), Username (denemedenemedeneme), Phone Number (1234324123), and Gender (Male). A blue "Edit Profile" button is located at the bottom right of this section.

Edit Profile

Through the process of editing the user profile, users have the option to update their profile photo, first name, last name, username, and phone number. If changes need to be saved, they can be made permanent by selecting the 'Save' option. However, if the user decides not to proceed with the changes, they can cancel the process using the 'Cancel' option. This user-friendly interface facilitates updating user information and provides a flexible experience by allowing users to make updates and revert changes as needed.

Home Shop Contact

The screenshot shows the "Edit Profile" form. It includes a profile picture placeholder with the URL "https://arkeofili.com/wp-". Below the picture, there are input fields for First Name ("Burak") and Last Name ("Türker"). To the right of the input fields, there are fields for Email (karadanakutuphane@gmail.com), Username (denemedenemedeneme), Phone Number (1234324123), and Gender (Male). At the bottom right of the form, there are two buttons: a red "Cancel" button and a green "Save" button.

Dashboard Addresses Page

The Addresses Page on the Dashboard allows users to view their addresses in a list format. On this page, you can see a list of your registered addresses. To access more details, it's recommended to click the 'Detail' button. If you wish to update an existing address, you can click the 'Update' button. Similarly, if you want to delete a registered address, you can use the 'Delete' button. To add a new address, you can click the 'New Addresses' button and input your new address information. This layout enables users to easily manage their address operations.

1-0 Beach 149th St, Rockaway Park, NY 11694, Amerika Birleşik Devletleri	

Addresses Detail Page

The Address Detail Page is an area where the user can view details related to the added address.

The screenshot shows a web page titled "HOME NEWYORK". At the top, there is a breadcrumb navigation: "Addresses" - "Address Details". Below the title, there is a back button labeled " Addresses Back". The main content area displays the following address details:

Country Name:	District Name:
ABD	1-0 Beach 149th St
City Name:	Address Postcode:
New York	11694
Town Name:	Address Description:
Rockaway Park	1-0 Beach 149th St, Rockaway Park, NY 11694, Amerika Birleşik Devletleri

A small red "X" icon is located in the top right corner of the content area.

Update Addresses Page

The 'Update Address' process opens a page where you can edit the information associated with the selected address. Initially, the details of the existing address are displayed. Users can add new information by making necessary modifications. Once all the edits are completed, clicking the 'Update Address' option automatically saves the changes and updates the address.

Dashboard Reminders

Users can easily view the reminders they have previously created on the 'Dashboard Reminders' page. This enables them to track past and future reminders. This feature assists users in not missing important events or tasks.

Furthermore, on this page, users can also update or delete reminders they have previously set up. If they choose to perform a deletion operation on a reminder, they will no longer have access to it when the relevant time comes. However, by updating reminders, they can modify details such as content, title, or date. This facilitates users in adapting to changing needs.

The ability to update and delete reminders assists users in managing their personal organization more effectively. This feature allows users to flexibly adjust predetermined tasks and make changes when needed. In essence, reminder management enhances the user experience and makes time management more efficient.

#	Title	Description	Date	Options
9	Birthday Gifts	Birthday gift to myself	12/19/2024 11:10:00 AM	Update - Delete
10	Mother's Day Gift	Don't forget to buy a mother's day gift for my mom	5/7/2025 11:10:00 AM	Update - Delete
11	Receivables on salary	The products I want to buy are in my favorites.	6/8/2026 11:30:00 AM	Update - Delete

1

New Reminder

When the time for a notification arrives, a visual notification appears on the below of the screen. Additionally, the title and description content of the relevant reminder are sent to the user's email address as an email, as shown in the example right side:

The image shows an email from Monovi. At the top, there is a red circular logo with a white 'M' and the word 'Monovi' in white, with the subtitle 'Bilişim Teknolojileri Yayıncılık' underneath. Below the logo is a green dashed circle containing a yellow envelope icon. The main body of the email is titled 'Reminders'. It starts with 'Hello Hüseyin Karadana,' followed by 'You have a reminder!' and a short message ' lorem ipsum'. At the bottom, it says 'Best regards, Monovi Team'. At the very bottom, there are social media links (Facebook, Twitter, LinkedIn, Instagram) and a row of small text links: 'Unsubscribe', 'Help', 'Login', and 'Privacy'.

Add Reminder

On the 'Add New Reminder' page, you can personalize your personal reminders. Using this page, you can create a reminder by assigning features such as a title, content, and reminder date to it. Here's a step-by-step guide on how to do it:

Title: Assign a descriptive title to your reminder. This title explains the purpose or content of the reminder.

Content: You can use the content section to provide more details about the reminder. Here, you can add information that explains what the reminder is about or what action needs to be taken.

Reminder Date: Determine when the reminder should occur. This date and time will remind you of the reminder at a suitable time.

This page is a fantastic tool to enhance personal organization and prevent forgetfulness. By creating reminders according to your needs, you will never forget important events or tasks. This way, you can effectively manage your time and use it more efficiently.

New Reminder

Title	Date
Receivables on salary	08.06.2026 11:30
Description	Create Reminder
The products I want to buy are in my favorites.	

Update Reminder

Through the 'Reminder Update' page, you can customize reminders you've previously added. Using this page, you can edit the title, content, and reminder date of your reminder. Here's a step-by-step guide on how to do it:

Reminder Selection: First, select the reminder you want to update. This allows you to edit the reminder you've chosen from the list of reminders you've added before.

Edit Title: Edit the reminder's title as desired. This title explains the purpose or content of the reminder.

Edit Content: You can use the content section to provide more details about the reminder or make changes. You can edit information that explains what the reminder is about or what action needs to be taken.

Edit Reminder Date: Determine or modify when the reminder should occur. This date and time will remind you of the reminder at a suitable time.

This page allows you to adapt to changing needs by updating reminders you've added before. By editing reminders, you gain the ability to track future events or tasks with updated information. This assists in enhancing your personal organization and making time management more effective.

The user can manage options of the products with clicking one of the options buttons. These buttons are “Details”, “Update” and “Delete”.

When the details button is clicked, the details page of the product is displayed as can be seen below.

1969 Ford Mustang
★ ★ ★ ★
7.000.000,00 TL

1969 Ford Mustang Boss 429

Year: 1969
 Engine: Boss 429
 All pieces original.

Out went the original 286bhp, 290lb ft small block V8, and in went the 5-litre Coyote V8, a modern unit first seen in the 2011 Mustang, various other Ford products, and the one destined for the new TVR Griffith. Though respectable power can be extracted without forced induction, no custom-built muscle car would be complete without snails.

Share on:

[Back To Shop](#)

When the update button is clicked, the update product page is displayed. This page is explained in more details below its own title.

When the delete button is clicked, the product is deleted from the database and will not be shown anymore in the shop. The system displays a message box when any of the actions is performed.

Add Product

The 'Add Product' page allows you to input details for the product you wish to list for sale. On this page, you need to fill in information such as the product title, brand, price, discount rate, image (as a URL), category, subcategory, category detail, and description. To add a product image in URL format, you can use a link converted from a service like '<https://hizliresim.com/>'. Here are the steps you need to take on this page:

Product Title: Add a descriptive title that identifies your product. **Brand:** Specify the brand of the product.

Price: Enter the price of the product. **Discount Rate:** If a discount is applicable to the product, indicate the discount rate. If no discount is applicable, enter '0' in this field.

Image URL: Add the product image as a URL, obtained from a service like '<https://hizliresim.com/>'.

Category: Select the category to which the product belongs.

Subcategory: Determine the subcategory of the product.

Category Detail: Specify a more specific subcategory for the product. **Description:** You can provide descriptive information about the product's features, usage, or other details.

After filling in all this information, you can click the 'Add Item' button to add the product for sale to the system. This process facilitates users in easily adding and listing products for sale. Additionally, it enables you to swiftly share visuals and descriptions of the product in URL format.

Image https://gabbahome.com/wp-content/uploads/2023/09/Belgrad-Roma-Sofa-Set-1.jpg	Category House	SubCategory Furniture	Category Detail Sofas
Description With its plush design, the Roma Latch Recliner Sofa combines style and comfort. Part of our Premier sofa collection, this cosy sofa is upholstered in easy to clean, faux leather making it a practical choice for families. Curvaceous seats recline individually, enabling you to put your feet up for a quick nap – the perfect solution for when another family member wants to stay seated upright. Lift the latch on the side of the sofa to control the recline function. With its soft padding and excellent lumbar support, this smart sofa can be purchased individually as two and three-seaters, or as a set including the Roma Manual Latch Recliner Chair – available in black, brown or grey.

Dashboard Baskets Page

When you click Baskets on the Dashboard, you can view your own baskets as a list. There are status, date created, total price and sharing code of the baskets in this list.

When you click the 'Select Main' button at the beginning of each basket, you will make that basket the main one. Thus, every product you add in the shop is added to the cart selected as this main cart.

To delete a basket, you must press the red button 'Delete'. So this cart will be deleted from your list. In addition, if the basket you deleted is the main basket, after the deletion process, the system automatically makes the basket at the top of the list the main basket.

If you want to add a new basket, you can press the orange button 'New Basket' under the basket list.

Add Order

On the add new basket page, you must select the status of the basket and the address to which the shopping will be delivered. Then, by clicking the 'Create Basket' button, you create a new basket. A random sharing code is assigned to this created basket by the system. Also, there is no product in the basket, so the total price value is 0. These values will change as you add products.

New Basket

Status	Address Name
<input type="text"/>	<input style="width: 100px; height: 30px; border: 1px solid #ccc; padding: 5px;" type="text" value="Ev"/> 
Create Basket	

Update Order

As with adding a basket, two features can be entered in the basket update. These are again the status of the basket and the address. If the user enters a new value for these properties and presses the 'Update Order' button, the values of the basket will now appear in the list as renewed.

Sorting

There is a sorting dropdown list on the top right corner of the shop page for selecting a sorting filter. You can sort the items by latest, popularity, price ascending and price descending filters. Latest filter sorts the items starting from the last inserted ones. Popularity filter sorts the items starting from the ones that most added to the favourite items. Price filter sorts the items by ascending price or descending price depending on the filter.

Filtering

There is a filtering function in the shop page. The user can filter items related to their price interval, subcategory and category detail. The selected filters can be applied at the same time.

- If the user selects filters from one filtering category at the same time, the combination of the items of the selected filtering categories will be displayed.
- If the user selects filters from different filtering categories at the same time, the intersection of the items of the selected filtering categories will be displayed.

When the “Filter” button is clicked, the filtered items page will be displayed.

Main Cart Page

- You can add the product to the cart by clicking the Add to Cart button under the product.

- You can reach the products you have added to the cart by clicking the cart button on the top right.

- By using the green area, you can decide how many items you will add to the cart.

You can remove the product completely from the basket by using the button in the blue area.

You can view a basket shared by someone else on your page using the red area.
By using the button in the purple area, you can save the basket you are viewing as your own basket.

The screenshot shows a shopping cart interface with the following elements:

- Cart Table:** A grid of items with columns: Img, Title, Price, Quantity, Total, and Remove.
- Share Code:** A section with a text input "Share Code" and a button "Apply Share Code".
- Cart Summary:** A summary section with a "Share" icon, a "Share Code" input field containing "kqr3k88nig", and a "Total" amount of "57.041,01 TL".
- Buttons:** A green box highlights the quantity minus button for the first item. A blue box highlights the remove button for the fourth item. A purple box highlights the "Save the Cart" button at the bottom right of the summary section.

Notifications Page

The "Notification Page" is where a notification appears if a user has received a reminder and hasn't viewed it before. If the user has previously entered this page and read the reminder, they can review the relevant reminders on the "Dashboard Reminders" page.

On this page, you can view and process the reminders that the user hasn't seen. If you haven't viewed a reminder before, it will appear on this page. After reading a reminder, its display will disappear from this page.

The screenshot shows a "NOTIFICATIONS" section with a table of reminders:

#	Title	Description	Date	Options
10	Mother's Day Gift	Don't forget to buy a mother's day gift for my mom	8/11/2023 11:16:00 AM	<button>Delete</button>
11	Receivables on salary	The products I want to buy are in my favorites.	8/11/2023 11:16:00 AM	<button>Delete</button>

Security page

- You can change your password using the green field. To check that the passwords are the same, you must enter the same password twice.
- You can delete your account using the red area. Remember, this action cannot be undone.

The diagram shows a user interface for changing a password. It features two input fields: 'New Password' and 'Password Again', both with placeholder text '(8-16 characters)'. Below these is a green rectangular button labeled 'Save Password'. To the right of the 'Save Password' button is a red rectangular button labeled 'Delete My Account'. A green callout arrow points from the top right towards the 'Save Password' button. A red callout arrow points from the top right towards the 'Delete My Account' button. A red box surrounds the 'Delete My Account' button, and a red text box next to it contains the warning: 'All data associated with your deleted account will be erased.'

Forgot Password

If the user forgets their password, when they click on the 'Forgot My Password' option on the login page, the following page is displayed. The user is required to enter their email address here and click the 'Send Password Reset Code' button.

This page guides the user step by step to initiate the password reset process. Here are the steps you need to take on this page:

Entering Email Address: There is a field for the user to enter their registered email address. They are expected to enter the email address where the password reset code will be sent.

— Enter Login —

The diagram shows a user interface for logging in. It includes two input fields: 'Your Email' and 'Password'. Below these is a brown rectangular button labeled 'Login'. To the right of the 'Login' button is a link labeled 'Forgot my password' with a hand cursor icon pointing at it.

The diagram shows a user interface for sending a password reset code. It has a text input field containing 'example@gmail.com' and a brown rectangular button labeled 'Send Password Reset Code'. A hand cursor icon is positioned over the 'Send Password Reset Code' button.

Sending Password Reset Code: After entering the email address, the user clicks on the 'Send Password Reset Code' button. Upon clicking this button, a password reset code is sent to the email address specified by the user.

This page offers a user-friendly interface for users to initiate the password reset process. The use of a password reset code ensures the security and privacy of the users while allowing them to reset forgotten passwords.

If a user forgets their password and opens the message sent to their email address, when they click the 'Reset Password' button within the message, they are directed to the following password reset page. On this page, the user can successfully reset their password by entering the sent password reset code and a new password.

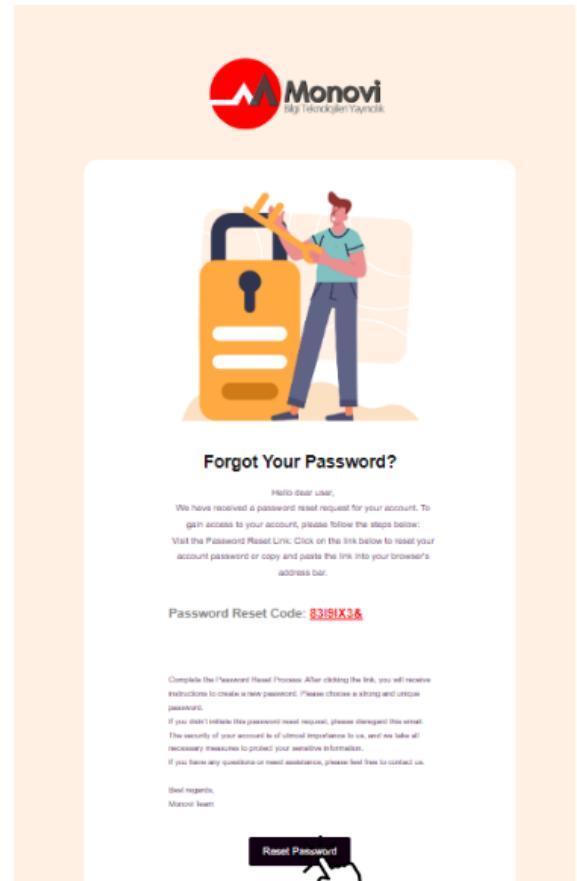

This page provides the necessary steps for the user to complete the password reset process. Here are the steps you need to take on this page:

Password Reset Code: The user needs to enter the password reset code sent to their email address into the relevant field. This code is used to authenticate the user's identity.

New Password and Confirmation: The user must set a new password to replace the old one. Additionally, there is a field to confirm the new password.

Password Reset Process: After setting and confirming the new password, the user clicks the 'Reset Password' button. Upon clicking this button, the user's password is reset, and the new password becomes active.

This page allows the user to securely reset their forgotten password. The password reset process ensures the security of the user's account while enabling them to regain access to their account.
